Inasmuch as the same opinion has been declared not only by the press and peochem declared not only b closes no authority for it, and whether judged at Syracuse, on the 3d day of September, 1863, at 10 seems to us that Mr. Stanton may reconsider and reverse his decision without loss of dignity, and with manifest advantage. We quote the opinion of Judge Cadwalader of Philadelphia, from the same case which is elsewhere referred to:

The exactment is that any person drafted and notified may furnish an acceptable substitute, or pay 'such sum, not exceeding three hundred dellars, as the Secretary may determine, for the procuration of such substitute, which sum sha be fixed at a uniform rate by a general order made at the time of ordering a draft for any State or Territory.' Thus the rate may vary in different States or Territories, with local differences in the bounty money that will obtain a substitute. The commutation money must be fixed by the Secretary of War, at an amount sufficiently great to enable him to procure with it a recruit. When paid, it does not, like the penalties under the former system, pass into the Tressury; but be comes a fund at the disposal of the War Department not for its general expenses, but for the specifically defined purpose of procuring a substitute for the exempt. The money is neither a penalty for non-attendance, nor an arbitrary equivalent for the military service originally due, but such an

substitute," it must be presumed that it does and arms they are proud to bear.

By the ready and vigorous assistance thus rendered, the soil of Pennsylvania was relieved from the presence of the intate. If so, and if thereafter, the exempt who wader, and aid was given to the national armies which helped has supplied this substitute is again drafted, to win the victory at Gettysburg.

The people of the State of New-York will remember with one man is made to furnish the Government with two soldiers, which clearly was not the intent of the law. Or, if he again pays the another substitute, he may again be drafted, It required no little courage to uphold our militis system and so before the war is over, Mr. Stauton may exact from every citizen who is unable to their organization, and by their example and restrevived a enter the service an indefinite number of sub-
